

JUST A LITTLE DIFFERENT

That touch that adds just a little more style, character and tone, to distinguish them from the ordinary, everyday kind of shoe sold by the general stores. There is a solidity in the make that also gives to our goods the wearing quality, lacking in so many shoes you have bought, and makes them look neat till they are worn out. It pays to buy the kind we handle. We are exclusive dealers in footwear, and therefore can afford to and do carry a larger stock, and in all grades, than is possible for those who do not make a specialty of this line.

Will Examine Engine Men.

Notices have been posted by the operating department of the Burlington railroad in all division offices that all employes in the train and locomotive service be examined in the near future on hearing and eyesight. This is the first such order to be issued in several years. Employes are always examined on their ears and eyes when entering the service, but it has not been customary for them to be tested in that regard at other times.

Minor defects of aricular or visionary powers will not disqualify men who have been long in the service of the road, but nevertheless the examination is expected to be a rigid one. The employes will undergo it at division headquarters where they have their respective stop-overs.

How much money does the average farmer of Red Willow county make out of a season's work? We do not mean how much net profit is left at the end of the season, throwing in the labor of the farmer and his sons in the fields and of his wife and daughter in the house and poultry yard, but how much profit results after all labor is included at a fair value and a reasonable return allowed on the capital invested in land, improvements, implements, etc. Farm book-keeping should be simple, but it is important. All such questions as these are discussed in The Iowa Homestead, of Des Moines, Iowa, a farm paper which we most heartily recommend to the farmers of this vicinity and for which THE TRIBUNE is glad to receive and forward subscriptions at a reasonable combination clubbing rate. The Iowa Homestead has departments covering every interest of the farm and employs a large corps of able special contributors. The leading experiment station workers and best farm writers of Wisconsin, Illinois, Iowa, Missouri, Nebraska, Kansas and Oklahoma write for it now.

Call at THE TRIBUNE office and see what can be done for you in the way of reading matter for the coming year. It will save you money.
